

Module 6: Career Preparation

Assignment

LinkedIn Profile & Career Self-Assessment

LinkedIn Profile & Career Self-Assessment | 100 points | Due after Module 6.

Required. Create a LinkedIn profile with at least four complete sections (headline, About, Education, and at least one Experience entry) and a profile photo. This profile is a portfolio artifact. You will paste its public URL into your College Readiness Portfolio. Set the profile to public and confirm the link works in a private browser window.

Strongly encouraged. Attach a one-page resume draft as a PDF. The resume content is what fills your LinkedIn profile, and you will need it for applications. Including a resume is required for an Exemplary score.

Also submit. A written self-assessment of 100 to 150 words. What is one thing about your profile or resume you are still unsure about, and what is your specific next step?

Rubric

Exemplary	Proficient	Emerging	Incomplete
90-100 pts: LinkedIn profile is complete and public, with all four sections filled in using specific, action-oriented language and a clear photo. A one-page resume is attached and uses action verbs throughout with no entry starting with "helped," "assisted," or "responsible for." Self-assessment names a specific gap and a concrete next step.	75-89 pts: Profile covers all four required sections and is public. Minor weaknesses in one or two entries, or the photo is missing. Resume may or may not be attached. Self-assessment is present and specific.	50-74 pts: Profile is missing one or more required sections, is not set to public, or uses consistently vague language. Self-assessment is vague or missing.	0-49 pts: Not submitted, link does not work, or the profile does not reflect the student's real information.
