

# Study Smarter

What works vs what feels like it works

## Feels productive, skip it

- ✗ Rereading notes.
- ✗ Highlighting.

## Also skip these

- ✗ Cramming the night before.
- ✗ All-nighters.

## Actually works, do this:

- ✓ Retrieval practice: close the book and recall from memory.

## ✓ Practice tests

✓ **Spaced practice:** short sessions spread across the week.

## The method:

Short, spaced sessions where you test yourself.
