

THE 4 UNWRITTEN RULES OF COLLEGE

For first-generation college students navigating their college journey

1. Read the syllabus

- It is a contract. Calendar every due date on day one.

2. Go to office hours early

- Mostly empty. Go in the first three weeks, before you need anything.

3. Email like a pro

- Title, clear question, your name and course.

4. Ask before you collaborate.

- "I asked first" protects you. "I did not know" does not.
